

MACHINE GUN SUPPRESSOR

For 5.56mm & 7.62mm

The Platt Suppressor is a premium suppressor for a range of calibres designed through Platt 'SMARS' (Signature Management & Reduction System) providing accuracy and volumetric efficiency.

Manufactured for extreme durability and performance using modern manufacturing, test and validation techniques, the Platt suppressor has minimal point of impact shift and effectively reduces flash and sound signatures in all conditions and rates of fire.

Technical Specifications

Compatibility: 5.56mm/ 7.62mm calibres

Suppressor 5.56mm: 49mm H x 68mm W x 156mm L
Weight: 420g

Suppressor 7.62mm: 58mm H x 80mm W x 185mm L
Weight: 695g
